

The heart

- pumps blood throughout the body and lungs

Valves

- Prevents backflow of the blood
- tricuspid, mitral, pulmonary, aortic

Parts of the heart

Right side

1. Deoxygenated Blood
2. Superior/inferior Vena Cava
3. R Atrium
4. R Ventri.
5. Pulmo. Artery
6. Lungs

Left side

1. Oxygenated Blood
2. Pulmo. Vein
3. L Atrium
4. L Ventri.
5. Aorta

Valves (In order)

1. Tricuspid
2. Pulmo. Valve
3. Mitral
4. Aortic Valve
